PROFILE

Results-driven Oracle Developer with hands-on experience in designing, developing, and maintaining enterprise applications using Oracle technologies including SQL, PL/SQL, Oracle Forms, Oracle Reports, and Oracle APEX. Proficient in writing complex database queries, stored procedures, and triggers to support business logic and reporting needs. Skilled in building custom ERP modules, automating business processes, and integrating backend systems with user interfaces. Adept at troubleshooting, performance tuning, and providing technical support in both development and production environments. Committed to delivering scalable, secure, and efficient solutions aligned with organizational objectives.

WORK EXPERIENCE

Eastern Software Solutions Pvt Ltd.

- Senior Software Engineer 2025 (January) - Till Now
- Worked as a Senior Software Engineer at onsite client locations in Tanzania, engaging with multiple client companies for end-to-end ERP implementation—including requirement analysis, customization, development, testing, and deployment on live servers. Played a key role in delivering user training, conducting UAT, and offering continuous onsite support. Coordinated directly with client stakeholders and end users to gather feedback, resolve issues, implement new functionalities, and ensure the successful rollout and stabilization of multiple ERP modules.

Eastern Software Systems Pvt Ltd.

- Software Engineer 2023(April)-2024(December)
- Worked as a Software Engineer handling ERP systems for multiple clients, developing solutions using SQL, PL/SQL, Oracle APEX, and Oracle Database, while actively engaging with clients to resolve technical issues and deliver tailored solutions aligned with their business needs.

Housing and Urban development Department

- Jagamission Intern 2023(2 months)
- Completed an internship with the Housing and Urban Development Department of Odisha, contributing to government initiatives aimed at improving urban infrastructure and services for the welfare of society and local communities.

Q Academy

- Project Coordinator Intern 2023(3 months)
- Served as Project Coordinator at Q Academy, overseeing the development and execution of an e-learning platform focused on teaching Python programming to school students.
